In April 2006 Pinehall Communications were awarded a contract by PEEK Traffic as part of the NRTS National Roads Telecommunications Service Project and will be instrumental in providing expertise and services to the Genesys consortium in taking on the existing communications infrastructure, maintenance, and provisioning works from current national and regional contractors.

The NRTS contract places Pinehall Communications in a strategic market position providing a platform on which they can continue to grow and develop their business further.

Mr. Lee Smith, Sales & Commercial Director for Pinehall Communications Said they are looking forward to working with Peek Traffic and its GeneSYS partners to deliver the biggest and most important Highways Agency contract to date”.

Pinehall Communications continue to be key supply chain partners with several major construction company's and blue chip telecommunications providers throughout the UK and Europe.
